

Israeli ICD Registry

- Launched in July 2010
- Voluntary registry organized by IWGPEP with technical assistance of device companies
- Online reporting at the end of every high power device procedure by company representatives on site
- Web-based secured database
- No data collected on complications, commercial information kept confidential, medical centers de-identified in the report
- Support by the IWGPEP, device companies and the major HMO.
- Yearly follow up started 7-2011
